

Restore your floors and gain ground in no time at all.

Perfect for all floor work: the FEIN MULTIMASTER caters to the entire range of tasks when it comes to floors – from effortlessly removing old floor coverings, such as carpet or PVC to cutting parquet, laminate, floor strips and door jambs to the correct height, to sanding parquet flooring accurately into difficult corners and edges. The FEIN MULTIMASTER saves you a great deal of time and effort in all operations with its accessories that are specially developed for individual applications.

1. Cutting floor coverings:

Cut rigid material such as plastic or carpet simply and without any problems with the convex segment blade.

Order number
6 39 03 192 01 4

2. Removing floor coverings / adhesive residues:

Carpet adhesive residues, coatings or other stubborn materials don't stand a chance against the rigid scraper blade.

Order number
6 39 03 178 01 7

3. Altering door jambs precisely:

The high precision and cutting speed of the E-CUT saw blades are impressive when altering door jambs for higher floor coverings or making recesses in parquet and laminate.

Order number
6 35 02 127 01 7

4. Trimming parquet and laminate:

Whether parquet, laminate or composite materials, the universal E-CUT saw blade cuts exactly and appropriately for the particular material.

Order number
6 35 02 152 01 0

5. Sanding down parquet:

The FEIN MULTIMASTER will impress you with its sanding accessories, high sanding speed and consistent results in situations where other tools don't work at all.

For accessories, see page 19 under „Sanding“

6. Sawing out baseboard or trim work:

Saw installed baseboard without damaging the wall and floor, thereby avoiding time-consuming touch-up work.
