

## Always accurate – even in tight spaces.

Professional assembly and restoration: with the FEIN MULTIMASTER you have the ideal tool for assembling kitchens and furniture. Even difficult operations in the tightest of spaces, such as sawing recesses in elements that have already been assembled, can be carried out accurately and without any difficulty. And when restoring furniture, previously time-consuming manual work, such as profile sanding, can be accomplished far more quickly and efficiently with the FEIN MULTIMASTER.

### 1. Recesses for cable and pipe access:

Make cut-outs for cable inlets, sockets and plumbing connections using the E-CUT saw blades – without time-consuming dismantling.

Order number  
6 35 02 152 01 0

### 2. Fitting and adapting work sites:

Cutting recesses for subsequent installations and conversions is not a problem with the E-CUT saw blades, even for sheets that have already been installed.

Order number  
6 35 02 127 01 7

### 3. Restoring and renovating upholstered furniture:

The flush cut HSS saw blade saves you effort and the upholstery, as staples can be easily removed and do not have to be pulled out with pliers.

Order number  
6 35 02 144 01 4

### 4. Profile sanding:

The replaceable inserts of the profile sanding set enable you to sand comfortably in cramped spaces, grooves and on profiles with considerably greater sanding speed.

Order number  
6 38 06 183 01 3

### 5. Table and drill stand support:

The combined fixture suitable for all available drill stands makes it possible to cut out grooves and recesses precisely. The drill stand mechanism allows exact adjustments.
